Permit me to introduce myself. My name is Rick Drew and I was the photographer you saw on stage during the prejudging, in the registration room, and next to the judges table for the evening show. I took over 1400 photographs Saturday, covering the Prejudging and Evening Show, as well as the weigh-in, evening show preparation, and various event areas, including the audience, crowds, and requested individual shots.

I took several photographs each time a contestant was on stage, either as a group or individually. Many contestants are in a few dozen photographs. You can see yourself side-by-side with other contestants, and individually. There are also photographs of most of the awards presentations, and guest poser Jay Cutler. I have color corrected and cropped every image to eliminate any washout caused by bright lights or flashes. I'm confident you'll be as happy with the images on this CD as I am.

Copyright information: I release the copyright on all images. This means that you can make as many prints or use the images however you want without paying extra fees. I retain the right to use the images for promotional purposes (samples on my websites, etc.)

You can purchase a CD containing all the images in medium and thumbnail sizes - you can use these on websites or for quality prints up 5x7, or decent quality 8x10's. There's also a DVD version containing all the images in large, medium, small and thumbnail sizes.

The large size images can print quality 11x17 images.
